

**ST. JOHNS
RIVER**
STATE COLLEGE

BID-SJR-09-2018

Addenda # 2

August 14, 2018

Question 1.

On Addenda 1, it is stated that the college spent \$9,720.00 on services last year - does that number include treatment of every building on every campus, or were there only select buildings being serviced? Additionally, was it based off the same scope of work?

\$9,720.00 annual amount is for all campus buildings. Current services is NOT based off the same scope of work, but the current pest control services performed is similar in many ways with the exception that the integrated Pest Management Plan (IMP) (section 5.3.3) and Monitoring Requirements (section 5.6) are not included in the current scope of work.
