

# VISUAL ART (0152)

## ASSOCIATE IN SCIENCE DEGREE

The Florida School of the Arts Visual Art Associate in Science Degree has four specializations:

**STUDIO ART:** This program prepares student artists for careers working with galleries or self-promoting, and/or transfer to four-year BFA programs.

**GRAPHIC DESIGN/NEW MEDIA:** This program is an interdisciplinary approach to the use of digital and emerging technologies based on a creative convergence of art, science, and technology for human expressions, social communication, and interaction.

**PHOTOGRAPHY:** Photography has become the ubiquitous medium and common language of contemporary life. In the context of new media, photography students will learn all current methods and application of the discipline as well as being immersed in many formative traditional technique.

**ANIMATION:** The visually charged world of imaginative and creative storytelling is today often illustrated with fast moving and exciting animated characters. Animation is a highly specialized medium that aspiring young creators should consider as a viable and promising career path. For all artists who desire a means of bringing their artistic visions to life, animation provides a full range of expression limited only by the imagination.
