St. Johns River Junior College was established as a public institution in 1958 to serve the counties of Clay, Putnam, and St. Johns. It was one of several public junior colleges founded in accordance with legislation enacted by the 1957 session of the Florida Legislature.

Located in Palatka, the College was officially opened for organizational purposes on February 25, 1958. Dr. B. R. Tilley was appointed as the first president.

Classes for the 1958-59 school year were conducted in the educational buildings of the First Baptist Church of Palatka, and 191 students began the fall semester of 1958. In its second year of operation, the College moved to its new campus of 96 acres. At the end of the second year, the College graduated its first class of 22 students.

In compliance with a legislative act, a District Board of Trustees was organized in 1968 as the governing body of the College. This board is composed of two members each from Clay and St. Johns counties and three members from Putnam County.

When Collier-Blocker Junior College in Palatka closed in 1964, the College absorbed its operation and began offering classes at that facility in the fall of 1964. At the end of Term II, 1965, all classes were moved to the main campus. The Collier-Blocker plant reverted to Putnam County.

In 1972 Dr. Robert L. McLendon, Jr., vice president and dean of academic affairs, was appointed president.

In August of 1976, the Florida School of the Arts began full operation as a part of St. Johns River Junior College with a charter class of 51 students. The first state-supported professional arts school for high school and college students in Florida, the school has continued to grow as its curriculum has expanded. The Florida School of the Arts serves the entire state of Florida.

In 1977, the College underwent two major changes. The official name became St. Johns River Community College and SJRCC opened its first branch campus in Orange Park, a community in northern Clay County. The Orange Park Campus is now located on College Drive in the Doctors Inlet area. Construction of permanent facilities on that site began in 1987, and the College began operating in the new facility in 1989. A student center and expanded learning resources center were constructed in 1997.

In July 1986, the College opened its second branch campus, this time in St. Augustine in the Fullerwood School, a site made available by the St. Johns County School Board. After operating for more than nine years in the Fullerwood building, the St. Augustine faculty, staff, and students moved in January 1996 to the newly constructed campus located on State Road 16.

In 1997, Senate Bill 1688 authorized all community colleges to offer Workforce Development programs, to include Adult and Career and Technical Certificate Programs. This opened the door to SJR State becoming a fully comprehensive community college. The inaugural CTC programs began in 1999 and included two criminal justice programs as well as apprenticeship programs in carpentry, electrical, and heating and air conditioning.

The College opened the Thrasher-Horne Center for the Arts on the Orange Park Campus in 2004. This complex hosts traveling art exhibits, theatrical shows and community events and serves as a meeting site for business conferences and events.

In 2008, Joe H. Pickens, J.D. was appointed as the College’s fourth president.

The College was granted approval to offer its first baccalaureate degrees in 2010 by the State Board of Education and the Southern Association of Colleges and Schools Commission on Colleges, moving the College from a Level I to a Level II accredited institution.

Classes for two bachelors' degree programs - Early Childhood Education and Organizational Management - began in January 2011.

Following legislation to rename the Florida Community College System the Florida College System, Florida Statutes then authorized colleges accredited to award four-year degrees to change their names to better reflect their progression. A public name change survey was conducted in 2010, prompting College Trustees to change the institution’s name to St. Johns River State College. A new College logo and Viking icon were unveiled when the College officially transitioned to SJR State in January 2011.

The College continues its comprehensive educational role by expanding its offerings in academic, workforce development and adult education areas, as well as continuing and community education, to better serve area residents.

should be addressed.

amend a record should write the St. Johns River State College official
responsible for the record, clearly identify the part of the record
the student wants changed, and specify why it should be changed.

auditor, or collection agent or a student volunteering to assist
another school official in performing his or her tasks.

St. Johns River State College collects and uses your SSN for the following purposes in performance of the College's duties and responsibilities. To protect your identity, SJR State will secure your SSN from unauthorized access, strictly prohibits the release of your SSN to unauthorized parties contrary to state and federal law, and assigns you a unique student/employee identification number. This unique ID number is used for all associated employment and educational purposes at SJR State.

Students

Admissions

Federal legislation relating to the Hope Tax Credit (Title 26, Internal Revenue Code) requires that all postsecondary institutions report student SSNs to the Internal Revenue Service (IRS). This IRS requirement makes it necessary for colleges to collect the SSN of every student. A student may refuse to disclose his/her SSN to the College for this purpose, but the IRS is then authorized to fine the student.

In addition to the federal reporting requirements, the public school system in Florida uses SSNs as a student identifier (Section 1008.386, F.S.). In a seamless K-20 system, it is beneficial for postsecondary institutions to have access to the same information for purposes of tracking and assisting students in the smooth transition from one education level to the next. All admission applications, affidavits regarding home schooling for admission to postsecondary educational institution, former high school or college transcript request forms, letters of intent for athletic scholarships, continuing workforce education (CTC) registration/application forms, and the adult education registration/application forms will request the student's SSN.

Financial Aid

A student’s SSN is required for the following financial aid purposes: The United States Department of Education's (USDOE) Free Application for Federal Student Aid (FAFSA) requires all applicants to report their SSN to be used for all federal financial aid programs as a student identifier for processing and reporting. In addition to its use by USDOE as a student identifier, the SSN is required in order for the Department of Homeland Security to investigate citizenship status, for the Federal Work Study program and is required on all loan applications for use by the lender/servicer/guarantor. Forms for processing and reporting financial aid include:

- Federal Work Study
- Financial Aid Consortium Agreement
- Authorization for Use of Federal Title IV Funds
- Appeal for Reinstatement of Financial Aid

SJR State collects a student’s SSN on certain institutional scholarship applications for student files and federal and state audit/reporting purposes.

If you are a recipient of a State of Florida grant or scholarship such as the Florida Student Assistance Grant, Florida Work Experience or Bright Futures, the State of Florida Department of Education will require the use of the SSN on their grant/scholarship disbursement website for reporting purposes.

Workforce Programs

Programs funded through the Department of Economic Opportunity (DEO) use your SSN as an identifier for program enrollment and completion. Also, it is used for entering placement information into either the OSMIS or the Employ Florida Marketplace statewide data collection and reporting system. Because these are performance based programs, DEO requires that all participants and their program-related activities be recorded in the Florida state system (Section 1008.39 F.S.). In addition, Workforce programs requiring licensure or certification which may use SSN as an identifier include:

Corporate College

SJR State collects SSNs to send roster information to the Florida Financial Services Department for the students that have successfully completed a pre-licensing course for insurance.

Corrections

SJR State collects SSNs to verify eligibility of Corrections students to sit for the state correctional certification exam through the Florida Department of Law Enforcement.

Emergency Medical Technician

SJR State collects SSNs to verify eligibility of Emergency Medical Technician students to sit for the National Registry Emergency Medical Technician Basic (NEMT-B) through the Florida Department of Health and Human Services.

Law Enforcement

SJR State collects SSNs to verify eligibility of Law Enforcement students to sit for the state law enforcement exam through
the Florida Department of Law Enforcement.

**Nursing**
SJR State collects SSNs to verify eligibility of nursing students to sit for the state licensure exam for the State Board of Nursing.

**Paramedic**
SJR State collects SSNs to verify eligibility of Paramedic students to sit for the National Registry Emergency Medical Technician Basic (NEMT-B) through the Florida Department of Health and Human Services.

**Radiography**
SJR State collects SSNs to verify eligibility of radiography students to sit for the national certification exam for the American Registry of Radiologic Technologists (ARRT).

**Respiratory Care**

**Contractors**
SJR State collects contractor SSN information in order to file the required information returns with the Internal Revenue Service, as required and authorized by Federal law.

**Generated ID Numbers**
The College has transitioned from the use of SSNs to generated ID numbers as unique identifiers. However, a variety of forms in the area of Admissions, Financial Aid, and Human Resources ask for either a generated ID or SSN. For statutory reference see Appendix I.
