

ADDENDA #1
TO RFQ-SJR-04-2022
January 24, 2022

The following questions have been asked for this RFQ:

Question #1: Am I correct in assuming that you do not need Electrical Engineering qualifications?

Answer: We are accepting all engineers for this RFQ. Even though we often use civil and mechanical engineers we would like to have all engineers on board for emergency purposes.

Question #2: If a MEP engineer applies as a prime for this RFQ, do you want us to show subs for auxiliary services?

Answer: Yes, if you have subs that you work with, you can include them in your response.

Question #3: Does SJR State have any Structural Engineering firms on a continuous contract?

Answer: No, we currently do not have any engineers on continuous contract. We are hoping to receive proposals from all categories or types of engineers in this RFQ.

Question #4: Do you have a current contract in place?

Answer: No, we do not have a current contract in place. We do have continuing contracts for Architects and annual contracts for Contractors, Civil, and Roofing Contractors.

Question #5: May we include a brief cover letter describing our team and its qualifications?

Answer: You should follow the format given in the specifications document; if you want to include a cover letter outside of your response that will be fine.

Question #6: Is utilizing a three-ring binder(s) for submittal responses ok?

Answer: Using a three-ring binder for your response is fine.
