

PUBLIC NOTICE

The District Board of Trustees of St. Johns River State College will hold its regularly scheduled monthly meeting on Wednesday, May 16, 2018 at 3:00 p.m. in the Criminal Justice Multipurpose Room (J-149), on the St. Augustine campus, 2990 College Drive, St. Augustine, Florida. In addition to the regular agenda, which may include, but is not limited to, business affairs, personnel matters, facilities items and academic and student affairs, the District Board of Trustees will also consider an increase in fees related to the BAT and TABE tests.

Florida Statute 1009.23(12)(a) grants authority to Florida College System institutional boards of trustees to establish fees within a range allowed by state statute. These fees “shall not exceed the cost of services provided and shall only be charged to persons receiving the service.” In order to comply with this legislation, SJR State created a specific institutional policy and procedure that governs the creation, review and adjustment of fees.

The proposed testing fees below are a result of increasing costs for testing supplies and materials as well as an analysis of similar fees among other colleges within the Florida College System. All testing fees are used to purchase items that are specifically related to the service provided. Proposed testing fees will be considered as follows beginning in the 2018-2019 academic year:

BAT testing - \$40.00 current fee; \$50.00 proposed fee

TABE testing - \$20.00 current fee; \$35.00 proposed fee

In addition to the changes in the testing fees, various laboratory and course fees changes will also be presented for Board approval. The proposed fees below are a result of the analysis of the anticipated enrollment and the annual expenditures for the course(s). The analysis of these expenditures includes a percentage allocation to the shared courses so that students are only

obligated for the cost associated with their specific course(s). Fee adjustments typically occur due to revisions to curriculum and course(s) and/or changes in the cost of expenditures. All laboratory and course fees are used to purchase items that are specifically related to the student learning outcomes and objectives of the course(s).

Proposed fees, which include fee increases, decreases and new fees, will be considered for the following courses beginning in the 2018-2019 academic year (course number - course title –proposed fee):
