ST. JOHNS RIVER STATE COLLEGE

STUDENT SERVICES

ACADEMIC ADVISING SERVICES

Each of SJR State's campuses has an office housing its academic advising staff. Academic and Career and Technical advisors are available on each campus to help students identify personal, career and educational goals, navigate the college's myriad policies and procedures, understand degree requirements, test scores, transfer requirements for specific programs and serve as a resource and point of contact for students regarding many areas of the college.

The academic advisors are available to provide current and incoming students with services that academically contribute to their personal and career growth and development. The staff also facilitates academic success plans through one-on-one initial meetings and continues that personal relationship building process with a rich schedule of advisor appointment and walk-in availability throughout the semester.

In addition to the career development, exploration and advisement that our professional advisors offer daily, our career transitions specialist offers a variety of career employability services to students. These services include career assessment, resume development, mock interviewing skill development, guidance on job search and employment opportunities, maintaining our web presence as well as coordinating multiple career fairs and workshops throughout the year.

Students may schedule an appointment with their advisor or drop-in to have a quick question answered. We recommend scheduling an appointment for students who need to review graduation requirements, participate in career counseling, discuss academic program planning and/or change programs, discuss transitioning to a baccalaureate program, complete Financial Aid Satisfactory Academic Progress (SAP) appeals, or who have in-depth questions regarding a policy or process at SJR State.

Students are encouraged to meet with their advisor throughout their academic career at SJR state. Advising opportunities from admission to graduation include the following milestones:

- Mandatory initial academic advising prior to first term enrollment.
- New freshmen are encouraged to meet with their assigned advisor during their first term of enrollment.
- Students pursuing limited access A.S. degrees will receive a hold after completing 12-credit hours. Students must attend a special program meeting to remove the hold in order to register for future courses.
- Students pursuing the A.A. degree, non-limited access A.S. degrees or certain college credit certificates will receive a hold after completing 20-credit hours. Students must meet with their advisor to remove the hold in order to register for future courses.
- Students are encouraged to meet with an advisor the term prior to graduation. In addition to completing all degree requirements, students are responsible for the graduation application, paying all associated fees and meeting the graduation application deadline.

Academic advising staff is dedicated to providing students with quality academic support services that involve timely and accurate academic advising, career counseling, services for students with disabilities and appropriate referrals as needed.

CAREER SERVICES

Career counseling services are available on each campus. In addition, there is a career resource web page at SJRstate.edu/careerservices.html available for student use, which provides resources on educational/career planning, job searching strategies, and employment information. Advisors are available for individuals who are interested in pursuing career and technical education, especially those with economic or educational needs. Career interest

and personality assessments are also available upon request or through enrollment in SLS 1401 Comprehensive Career Exploration or HSC 1004 Professions of Caring.

Contact the Academic Advising Office at (386) 312-4035 (Palatka), (904) 276-6855 (Orange Park) or (904) 808-7402 (St. Augustine) for more information.

The College assists students in locating part-time, full-time, and summer jobs with local, regional, and national employers. Announcements of job and internship opportunities are posted online in the College Central Network accessed from the SJR State career resource webpage. Additionally, this site provides information about the labor market, career related events, and job search strategies, such as resume writing, interviewing and networking.

MANDATORY HEALTH PROGRAM MEETING

Students who have declared their program in one of the pre-health areas of Health Information Technology, Nursing, LPN-ASN Bridge, Radiologic Technology, or Respiratory Care will have a hold on registration after earning 12 credit hours toward their program of study.

12 credit hour HOLD - required. The 12 credit hour hold on registration is lifted when students have completed a health program meeting. The purpose of the meeting is to determine if the student is on track to apply for admission into a limited access program, complete the program of study, or if a change of program of study is required. This early checkpoint serves as a means to address specific issues related to program admission and if additional support systems need to be put into place to encourage student success. The meetings are currently offered online via Canvas and review some of the content from new student orientation and strategies for learning in healthcare programs.

CAREER PATHWAYS

Career Pathways provides students who are completing career and technical education programs in high school with the opportunity to continue their studies in college in the same career cluster. In partnership with the Dual Enrollment department and in accordance with local and statewide articulation agreements, students have access to acceleration options, reducing the time and cost of their A.S. degree or certificate. Programs of study, from grade nine through post secondary, are designed by the St. Johns River Career Pathways Consortium and guided by the workforce and economic development needs of business and industry.

Local and statewide articulation agreements afford additional opportunities for returning adults to transition into workforce development degree and certificate programs by providing academic credit for earned industry certification and licensure.
