

Risk Management & Insurance

St. Johns River State College has a unique Risk Management and Insurance specialization that allows students to receive up to 3 Florida insurance licenses after completion of our program and they are able to bypass the state exams. It is a really great opportunity for students to take advantage of!

3 TYPES OF LICENSES:

4-40:

Resident Customer Representative

A salaried employee of the general lines (property and casualty) agent or agency that may transact automobile, water craft, home, motorcycle, and pet insurance under the supervision of a licensed and appointed general lines agent.

20-44:

Resident Personal Lines Agent

A general lines agent who is limited to transacting business related to property and casualty insurance sold to individuals and families for noncommercial purposes.

2-15:

Resident Life and Health Agent

Able to advise and sell life, health, and annuity insurance products

3 STEPS TO QUALIFY:

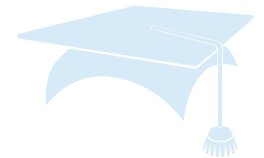

Complete all 3 Risk Management and Insurance Courses (all courses are fully online and count as college credit that can be transferred to a University)

- › RMI 2110 Personal Insurance (Offered in the Fall Semester)
- › RMI 2212 Personal and Business Property Insurance (Offered in Spring Semester)
- › RMI 2662 Introduction to Risk Management and Insurance (Offered in Spring Semester)

Complete a minimum of a 2-year degree

- › Associate of Arts
- › Associate of Science

Go to: www.myfloridacfo.com/Division/Agents/Licensure/default.htm

- › Create an account with [Florida Department of Financial Services - MyProfile](#)
- › **Get fingerprinting completed**
Must not have any felonies on record
- › Apply online and pay application fee
- › Include college transcripts
- › Choose the license you are applying for (4-40, 20-44, 2-15)
You may apply for all three AND only pay for one application fee!
- › Wait for response from Florida Department of Financial Services
Receive certificates electronically and print them

Scholarships and internships are available to students through Florida Association of Independent Agents' (FAIA) Good Works Fund and the Griffith Foundation. Students are able to use this as a gateway into the risk management and insurance industry. Many people think of insurance as just selling, but there are many careers in the industry such as: Information Technology, Underwriting, Accounting, Marketing, Actuarial Science, Operations, Claims, and Legal Compliance just to name a few.
